Canine Comforts

Dog Hotel Luxury. Shanghai gets its own Luxury Dog Hotel and Daycare Center by Edmond Kan

What is it?

A luxurious place for your dog to stay: during the day while you are at work or overnight whilst you are away.

Where?

Right across the road from Century Park, Pudong.

When does it open?

December 2009. Just in time for Christmas.

To do now?

Get vaccinations up to date NOW!!! Rabies, DHLPP, Bordetella. Write them down and tell your vet. Dogs without these cannot be admitted to the Hotel.

More information?

Think of a 4/5 star hotel you stayed in, only it's a 3-level 600 square metre complex. And you can't stay there, it's only for your dog.

Bedrooms

From 7am to 7pm, your dog can run free in a fully air-conditioned play or outside in the hotel garden.

Every dog will have their own private suite. The only time they will spend there is at night and during meals.

Beyond Excellence

Did I mention we'll have bedrooms big enough for a full size king bed for your dog? Oh, and 24hr webcams in the all-day play area and in selected suites.

Special Service

For more demanding guests, we have one-to-one walks, tummy rubs, fetch games and of course, obedience training by a qualified G3 trainer.
